FEATURED INDUSTRY CREDENTIALS — SERVICENOW CERTIFIED:

- **ServiceNow Certified Application Developer (CAD)** – Scoped Applications, Client/Server Scripting, Flow Designer, REST Integrations.
- **ServiceNow Certified System Administrator (CSA)** – Platform Configuration, User/Role Governance, Service Catalog, CMDB, Workflows.

PROFESSIONAL SUMMARY

Motivated Computer Science (AI) undergraduate and ServiceNow Certified Developer & Administrator (CAD, CSA) with strong expertise in enterprise platform development, full-stack web applications, and computer vision systems. Demonstrated success in architecting biometric facial recognition pipelines, natural language query translation engines, and automated enterprise workflows. Seeking high-impact software engineering or ServiceNow development roles.

TECHNICAL & CORE SKILLS

ServiceNow Platform:	**ServiceNow CAD & CSA Certified**, Scoped Applications, Flow Designer, Business Rules, Client Scripts, Script Includes, UI Policies & Actions, Service Catalog, CMDB, REST APIs
Programming Languages:	Python, Java, C, SQL, JavaScript (Modern ES6+)
Web & Frameworks:	ReactJS, Flask, REST APIs, HTML5, CSS3, Tailwind CSS
Databases & Cloud:	PostgreSQL, Supabase, Relational Modeling, ACID Transactions, Indexing
AI & Libraries:	OpenCV, DeepFace (ArcFace), Scikit-learn, Pandas, NumPy, Computer Vision
Developer Tools:	Git, GitHub, VS Code, Postman, Linux, Arduino IDE

EXPERIENCE

Software Developer Intern — Rudhra Info Solutions, Chennai | *1 Month (Full-Stack & Python)*

- Developed responsive front-end user interfaces using HTML5, CSS3, and JavaScript, ensuring seamless cross-browser compatibility.
- Integrated Python backend logic and executed rigorous debugging to resolve UI/UX and functional defects.
- Maintained disciplined version control workflows using Git and GitHub for feature branch staging and peer code reviews.

KEY PROJECTS

DataTalk – Natural Language Text-to-SQL & Dynamic Visualization | *ReactJS, Plotly, Supabase, Python*

- Engineered natural language translation engine converting plain English queries to executable PostgreSQL with real-time Plotly charts.

Student Identification System using ArcFace | *Python, OpenCV, DeepFace (ArcFace), Flask*

- Developed biometric facial identification platform with ArcFace angular margin loss, achieving 99.4% accuracy and sub-50ms latency.

Real-Time Face Recognition Web System | *Python, OpenCV, Flask*

- Designed multi-threaded video surveillance dashboard with automated face registration, feature extraction, and real-time logging.

Startup Unicorn Prediction System | *Python, Scikit-learn, Pandas, NumPy*

- Trained machine learning classifier predicting unicorn valuation trajectory from venture funding rounds and market dynamics (0.94 ROC-AUC).

Weather Sync – IoT Environmental Monitoring System | *Arduino, C++, DHT22 Sensors*

- Fabricated embedded hardware station recording real-time temperature/humidity with automated LED alert triggers and serial telemetry.

CERTIFICATIONS & ACCREDITATIONS

- **ServiceNow Certified Application Developer (CAD)** – Scoped app development, scripting, Flow Designer, REST APIs.
- **ServiceNow Certified System Administrator (CSA)** – Platform administration, user/role management, service catalog, CMDB.
- **NPTEL:** Database Management Systems (DBMS) – Relational modeling, normalization, indexing, and SQL optimization.
- **HCL (GUVI):** Modern JavaScript Programming – ES6+, asynchronous architecture, DOM manipulation, and REST APIs.

EDUCATION

B.E. Computer Science & Engineering (Artificial Intelligence) — Sathyabama Institute of Science & Technology, Chennai

2023 – 2027 (Expected) | ***CGPA: 8.6 / 10.0*** | *Coursework: DSA, OOP, Machine Learning, Computer Vision, DBMS, OS, Networks*
